

Our Project

1. Supporting care leavers

Providing assistance to care leavers who are vulnerable to wellness issues, such as financial, physical, social, and psychological difficulties that impact their lives.

Young Care Leavers (YCLs): those who encounter challenging circumstances in life. The association intends to assist them with training aimed at increasing capacity, legal help for young care leavers, and economic empowerment.

Create access to Preventive and curative health care services including mental, physical, and psycho-social health related issue for care leavers. The association takes the initiatives to tackle chronic disease victim's ,mental illness, substance abuse and all forms of addiction prevention including rehabilitation of young care leavers.

Creating job and small business opportunities for single mom/single dad/ or married mothers with no income who are already exposed to street life or on the edge of moving to street life.

Take part in youth wellness including mental health, addiction & substance abuse prevention/rehabilitation, sport, and special need support activities for youth including young care leavers and orphans.

2. Improvement of childcare and service level of gov't orphanages.

Do case study research on the issues and difficulties to provide different approaches to the government stakeholders involved in the care of children and orphans.

Offering training programs in digital literacy, business and entrepreneurship, mentality, life skills, soft skills, and entrepreneurship with a focus on job and business opportunities for young people.

Offering assistance with education, career training, health, counseling, coaching, and mentorship services.

Create and implement a variety of extracurricular activities to engage youth, especially those who have recently left foster care, in activities that will help them raise awareness and develop their skills.

3. Support children without parents for an improved and better life.

Children reunification with family for the benefit of both the child & family.

Engage in lobby & advocacy activities to make community awareness about domestic and foreign adoption of children who lost their parents due to distinct incidents.

Participate and involve in activities of Supporting children without parents via family linkage, adoption, sponsor, fostering, kinship & orphanage connection including other community-based child friendly suitable mechanisms.
